14 years (since inception 1/23/95)

EXPERIENCE AND QUALIFICATIONS

Matt Francis has worked as a Chief Draftsperson for over thirty-four years on many prominent and complex projects often with quick turn-around times. Mr. Francis has worked on projects throughout the country and throughout the world. For fourteen years, he was a technician for Fraioli-Blum-Yesselman in Norfolk, Virginia working on projects in Iceland, Spain, and The Azores. For the next six years, Mr. Francis was the Senior Technician at Stroud, Pence and Associates, Ltd. During this time, he gained extensive practical experience with federal, state, and local government projects. These experiences allowed him the opportunity to become a founding partner of Speight, Marshall & Francis, P.C. in 1995.

Matt Francis' design documents were the most complete set of drawings I have seen in past 20 years. Matt is approachable, accessible, and practical with any subcontractor questions with the design.

*Bob Kilar, Turner Construction
New York, NY 2/11/07*

Today Mr. Francis is known as one of the very finest technicians in the country. He has a well-rounded knowledge of the field and takes extreme pride in his work. His detailing abilities as well as his ability to compile a complete and concise set of construction drawings are extensive. Mr. Francis has a strong working knowledge of structural design standards.

Mr. Francis serves as Principal Structural Engineering Technician. Other CAD Technicians on our team have combined experience of over 55 years.

Mr. Francis is extremely well-versed in the detailing of a wide variety of projects including: **schools, offices, manufacturing & distribution facilities, retail and mixed-use, healthcare, housing, recreation facilities, religious facilities, and projects within all levels of government.**
