Are you inspired by your passion for developing cost-effective, creative structural engineering solutions that make sense? Want to be part of a collaborative team with a progressive, small firm environment without all the red tape where your innovative ideas can really make a difference? If you thrive in a fast-paced setting and have strong experience designing and managing a wide-variety of project types, then applying for a Structural Engineering position with Speight Marshall Francis may be the precise fit for you!

## SPEIGHT MARSHALL FRANCIS COMPANY OVERVIEW

In business for 26 years, our 38-person firm is known for our innovative structural engineering design solutions, exceptional responsiveness to client requests, and assertive “can do” mentality. Between two offices in Virginia Beach and Richmond, we employ structural engineers licensed to practice in 31 states and perform engineering services for a well-established public and private sector client base. Recent award-winning projects in Hampton Roads include:

- Kellam High School and Old Donation School, Virginia Beach
- The Main-Hilton Hotel and Convention Center, Norfolk
- Summit Pointe Development, Chesapeake
- The Leaning Tower of Granby Historic Renovations/Conversion to Savoy Apartments, Norfolk
- Town Center Mixed-Use Developments, Virginia Beach
- Glass Light Hotel & Gallery, Norfolk
- Kempsville and Bow Creek Recreation Centers, Virginia Beach
- STIHL USA, Inc. Headquarters, Virginia Beach

## POSITION OVERVIEW

We are seeking a full-time Virginia registered Structural Engineer with 5+ years of experience to support our dynamic engineering team. The winning candidate will have project management experience.

- Permanent, full-time position
- At our modern Virginia Beach office located at 1228 Perimeter Parkway, Suite 201 Virginia Beach, VA
- Excellent benefits package
- Salary commensurate with experience

## POSITION RESPONSIBILITIES

Responsibilities will include, but are not limited to, the following:

- Manage and perform engineering duties for various types of projects from start to completion
- Delegate work to drafting staff and review for compliance with company standards
- Interface collaboratively with other design team members, contractors, and owners
- Attend project meetings and assist clients with project development
- Exhibit eagerness to look outside of the box (or the norm) and apply creative engineering solutions
- Collaborate in the firm's marketing efforts

## QUALIFICATIONS AND SKILL REQUIREMENTS

- Virginia P.E. required
- 5+ years of experience working in structural engineering firms
- Project management experience required
- REVIT® Structure proficiency (preferred)
- Strong organization and time management skills
- Self-motivated and independent as well as work effectively with a team
- Reliable track record meeting deadlines with minimal supervision
- Motivated to continuously learn new skills and implement to keep the firm competitive and forward-thinking
